EXPERIENCE

Developer	2022-Present
CYLNDR Studios	Durham, NC

- Develop web applications, landing pages, games, HTML emails and animated banners for agency clients and internal initiatives
- Integrate websites into various CMS platforms and train team members on effective content management workflows
- Troubleshoot and resolve QA tickets efficiently, using Jira for issue tracking and cross-team communication
- Led front end development of a proprietary agency application, collaborating with back end developers to implement API integrations
- Promoted from Junior Developer after 18 months
- Examples of work:
[Crypto Craze](#): Developed a Vue-based client game, leveraging Pinia for state management and creating dynamic SVG animations
[McKinney.com](#): Developed an enterprise Wordpress site using a component-based Vue theme with custom Gutenberg blocks and ACF
[Are You Blacker Than ChatGPT?](#): Built an interactive web-based game for an internal initiative focused on highlighting AI bias

Publications & Web Director (Contractor)	2019-2024
Covenant Presbyterian Church	Fort Myers, FL
