EXPERIENCE

Developer

McKinney / CYLNDR

2022-Present

Durham, NC

- Develop web applications, landing pages and animated banners for agency clients and internal initiatives
- Integrate websites into CMSs and train other staff on effective usage
- Efficiently debug and resolve QA tickets using Jira
- Lead FE development of a proprietary agency app and collaborate with the BE team to set up API requests
- Promoted from Junior Developer after 1 year and 7 months
- Examples of work:

[Crypto Craze](#): Contributed significantly to the FE of this client game; collaborated with the designer to implement SVG animations

[McKinney.com](#): Developed an enterprise website with custom WordPress theme, blocks and ACF fields

[Are You Blacker Than ChatGPT?](#): Developed a game for an internal initiative that shines a light on AI bias
